### 1-800-247-8709

# THE LED ADVANTAGE...THE TIME IS NOW

U-Select-It now incorporates state-of-the art LED lighting features in your machines.

## Save Money

- **NO SERVICE CALLS** for bulb replacement
  - 5 Year + life in non-refrigerated models
  - 8 Year + life in refrigerated models
- **NO SERVICE CALLS** for electronic system/light problems
  - LED's do not radiate electronic noise and cannot interfere with other electronic systems and communications
- **REDUCED INVENTORY COSTS**
  - LED's are small, have long life and are less fragile than fluorescent bulbs and ballasts

## Sell More

### SUPERIOR LIGHTING MAXIMIZES PRODUCT DISPLAY

- Multi-point LED banks positioned uniformly in doors spot light product and eliminates shadows thrown by traditional fluorescent bulb lighting
- Product packaging is enhanced by LED focused light beams and is more inviting to the consumer
- Superior refrigerated product lighting. NO DIMMING!

## Efficiency

- **LED'S ARE ENERGY EFFICIENT**
  - On average LED's are **73%** more efficient than fluorescent tubes and ballasts
  - LED's operate from low voltage sources, 24VAC or less
  - LED's can be easily dimmed or cycled on/off without impacting longevity

## Environmentally Friendly

- **POSITIVE IMPACT**
  - Elimination of hazardous waste (toxic mercury) found in fluorescent tube

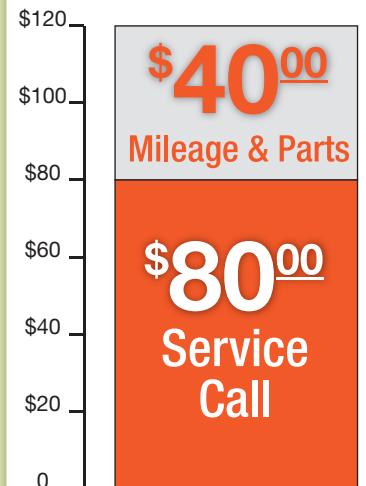

## High Quality

- **QUALITY SOURCES**
  - Only the most efficient LED chips are used from highly reputable suppliers
- **QUALITY DESIGN**
  - LED'S are mounted on extra thick copper pads keeping chip temperatures low and increasing life
  - LED's are current regulated minimizing heating and maximizing life
