Provide contactless food delivery and pick up stations with Delivery Lockers — innovative food locker technology that provides an easy and secure option to pick up orders, at the customers preferred time.

- Reduces face-to-face interaction creating a contactless dining experience
- Secure and tamper proof, scan app or manually enter order code to retrieve orders
- Create pick-up efficiencies – reduces order mix-up/confusion
- Insulated cubbies keep hot/cold food viable for 30+ minutes

Shown with Optional Graphics Wrap and Touch Screen

*In order to bring you the best products possible, we continue to improve product design and performance and as such specifications are subject to change without notice. The manufacturer makes no warranties or representations of compliance with any local, state, national or international requirements for the operation of the equipment in any application for which it is capable of being used beyond the UL and NEMA approvals listed on the product. Any purchaser is required to make an independent analysis of the fitness and legality of the product's usage before it is deployed and must continue to monitor the potential changing nature of compliance requirements. The manufacturer expressly disclaims responsibility for compliance with any laws and affirmatively requires any buyer to make an independent analysis of the fitness and legal basis of any use or application of the subject unit.
